

The Art, Science, & Beauty of Dental Implants

—
DR. CHRISTOPHER HENNINGER

Remember what it felt like to be confident in your smile?

“WHEN I WAS TOLD I WAS GOING TO LOSE THE REST OF MY REMAINING TEETH, I BECAME TERRIFIED OF WHAT THE FUTURE COULD HOLD.”

We believe that everyone deserves to feel confident.
We believe that everyone deserves to be happy.

That is why we offer the most cost-effective solution to tooth loss available: dental implants.

Some facts about dental implants

3M

DENTAL IMPLANT PATIENTS

3 million Americans have benefited from dental implants already. **500,000 more** join their ranks **every year**.

98%

SUCCESS RATE

98 percent of dental implant cases are successful, allowing for **amazing predictability of results**. Up to 94% of cases remain successful after 15 years.

30

YEARS OF CLINICAL DATA

Modern dental implants have been placed for over 30 years. Their **reliability, durability, and longevity** have a proven track record.

BENEFITS

Why our patients prefer dental implants.

Dental implants are the most ideal, permanent solution for tooth loss. **You owe it to yourself to live your life with a sense of pride and passion.** Over three million people have made the choice to invest in dental implants, and 500,000 add themselves to that group every year.

HEALTH

- Help to keep your smile straight.
- Reduce the risk of bacterial infection.
- Protect your jaw from bone loss.
- Help to prevent further tooth loss.

HAPPINESS

- Tooth loss is linked to anxiety and depression.
- Natural-looking crowns that restore functionality.
- Smiling more can make you feel happier.
- Be proud to show off your beautiful teeth.

CONFIDENCE

- Feel better and more confident.
- Feel good in social settings again.
- Look forward to smiling and laughing.
- Enhance your quality of life.

Our custom dental implant solutions.

SINGLE/MULTI-TOOTH

With a single implant we can replace a missing tooth root, providing long-term, long-lasting, and durable support for a custom-crafted porcelain dental crown that looks just like a real tooth.

FULL-ARCH

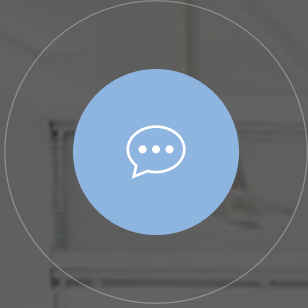

If you have multiple missing or severely damaged teeth, no matter if they are adjacent or apart, we can pair dental implants with crowns or a bridge to restore and aesthetically enhance your smile.

SNAP-IN DENTURES

Replacing a full arch of teeth with an implant-supported bridge will last longer, be more comfortable, and provide greater benefits than a traditional, removable denture.

I went with Dr. Henninger missing three teeth... He gave me brand new teeth, and they all look perfect! My teeth are unbelievable.

3 easy steps to a better life.

1. CONSULTATION

The first step in your journey toward a new smile is the consultation, during which we determine your candidacy for the treatment.

2. TREATMENT PLAN

Using 3D imaging technology, we create treatment plan options that are customized to your oral health and needs.

3. YOUR NEW SMILE

Finally, the dental implant will be placed along the jaw and a temporary, natural-looking dental crown will be placed while your permanent, custom-crafted restorations are made.

CANDIDACY

Are dental implants right for me?

YOU ARE A CANDIDATE IF,

- You want a smile you're proud of.
- You want improved oral and overall health.
- You want greater self-confidence and happiness.

Have you heard of sedation dentistry?

Pairing sedation dentistry with dental implants is a great way of getting the dental care you need while still feeling comfortable and relaxed during the procedure.

Dr. Henninger is one of 5% of restorative dentists who is certified by the ASDA in IV sedation.

COMFORTABLE TREATMENT, STUNNING SMILE

IV sedation is fast-acting, effective, and safe.

After the procedure, you will hardly remember a thing. You'll walk out of our office feeling good, with a brand new smile to show off.

Our story.

Why do we do what we do? Where does our passion stem from?

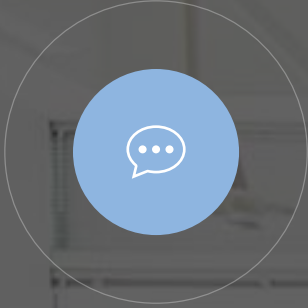

There's a feeling of satisfaction and happiness that you get when you see your patient look at their results in the mirror and smile for the first time in a long time. There's absolutely nothing like it in the world.

To us, your visit to our dental office is not merely an appointment. It's an

experience and we endeavor to make yours as pleasurable and comfortable as possible. We hold ourselves to a certain standard of excellence that is reflected by our office, our staff, our process, and your results.

You are encouraged to schedule your no-risk, no-obligation consultation with us. Come visit the office, meet the team, and see why our patients choose us for their dental implant care

|| **Today was my first visit and it exceeded my expectations... I must say that they live up to their 5 stars.**
